BANK OF GERMANY IN VERY WEAK CONDITION

Low Metal Stock and Great Demands Given as Reasons for Advances.

BERLIN, Nov. 4.-The rate of discount of the Imperial Bank of Germany was raised today from 5 to 515 per cent. President Koch, in proposing an increase in the discount rate to the central committee of the Imperial bank, iaid emphasis on the bank's weak status, which, he said, was much worse than it was a year ago, bills in portfolio being \$53,250,000 more whereas the metal stock was the lowest in four years. This was particularly true of the gold supply

Metal Stock Is Low.

While the movement of gold recently had been almost wholly lacking, he said, still the rates of foreign exchange were not particularly favorable to Germany. Still the year-end regularements were approaching and unusual demands on the bank must be met owing to the great presperity of the country and activity in all branches of production.

Failure to Sell Bills.

President Koch referred to the attempt of the Imperial bank to sell treasury bills in the open market last Friday, which almost wholly falled, norwithstanding the sharp advance in the private rates of discrept. In consequence of this one or two of the members of the committee thought an advance in the bank rate might be postponed, but the committee by a decisive majority voted the increase.

May Be Another.

Well-informed authorities regard a fur-ther marking up of the official rate as probable in December unless today's ad-vance has a marked effect in strength-ening the bank's status.

ELECTION CLOSE

Betting Favors McClellan and Jerome by Substantial Odds.

NOTABLE WAGERS PLACED ON THE GOTHAM CONTEST

Campaign Marks an Epoch of Independence of Action in Politics.

NEW YORK, Nov. 4-No municipal campaign in recent years has aroused greater interest throughout the country than that which will be concluded in Greater New York on Tuesday of next week. The fact that party lines evidently have been broken down and that each of the candidates will draw more or less largely upon the strength which logically belongs to his opponent makes the canvass which is now drawing to a close at once unique and exciting. The country-wide possibilities involved in the issues have made an element of national interest such as has not marked any preceding local election.

Betting Favors McClellan.

One feature is the interest Wall street brokers have manifested in the betting, which today favored McClellan for Mayor and Jerome for District Attorney. The odds on McClellan raried from 3 to 1 to 2 to 1. On Jerome 10 to 7 and 10 to 8 was offered. One firm of brokers, it is said, has placed \$150,000 against McClellan since the opening of the campaign and stands to win \$20,000.

Large Wagers Laid.

It was estimated that all of \$50,000 was wagered in Wall street today. One bet was made by T. B. Buchanan today of \$1000 even with J. J. Judge that Hearst would not get 175,000 votes. Among the large bets was one of \$6000 to \$2000 that McClellan would win, and \$15,000 was wagered by one firm on McClellan at 3 and 3½ to 1 in small amounts.

Odds for Jerome.

In the Jerome betting one broker placed \$6000 to \$4800 that Jerome would win. On the lyins side \$500 was placed against \$1000 that lyins would lose. Two to five was offered on Hearst against the field.

Candidates All Sanguine.

The party candidates published statements today. William M. Ivins declared he was gaining votes by thousands each day. Mayor McClellan said he was never so confident as now, and Mr. Hearst's managers said he would be elected. Tammany Hall's executive committee met this afternoon, but Mr. Murphy declined to give out figures on the election tonight. Result Will Be Close.

The estimates are at wide variance, but the whole Greater New York situation to-night, winding up, as it does, in one great whirlywind of political meetings in every section of the city, makes the prediction fair that the result will be close. The speechmaking end of the campaign closed for the candidates tonight, all addressing big meetings.

Break Down Party Lines.

Break Down Party Lines.

The distinctive features of the campaign have been the independent canvass for re-election to the office of District Attorney conducted by William Travers Jerome, and the entrance into the arena of local politics as a separate organization, supporting practically a full ticket of the Municipal Ownership league Both of these events stand forth, according to observers of things political, as epoch making incidents in that they are accepted as marking independence of action even to the disregard of party limitations which heretofore have bound men who figure prominently in politics.

OHIO CAMPAIGN PECULIAR.

Democrats Make Fight on Herrick's Use of Veto.

COLUMBUS. Nov. 4.—The campaign just drawing to a close has been peculiar, even for Ohio. Dignified platform declarations have been overlooked in the bitter denunciations and personal attacks that characterized the campaign. Saloons and their regulation, horse racing and pool melling, the use of the veto power, insurance management and legislation and political bossism were among the themes for discussion. COLUMBUS discussion.

Democrats Attack Herrick.

In general Republican speeches have advocated 'President Roosevelt's policy' but the Democrats have attacked Governor Herrick's administration, especially criticising his use of the veto power. The public criticism was that which brought the Anti-Saloon league into the field against the Governor and consisted of a charge that by threatening to use the veto against the Brannock law Governor Herrick had compelled changes in that bill.

Anti-Saloon League in It.

It was the influence of that league which settled the choice of the Democrat-ic candidate for Governor. Former Conwhich settled the choice of the Democrat-le candidate for Governor. Former Con-gressman John M. Pattison, a pronounced temperance man, a Methodist, in which church the Anti-Saloen league counts its leading members, and a successful busi-ness man. Another phase of the campaign and

Another phase of the campaign and one having its particular complications has been an attack on political bossism. The speeches have been particularly di-rected against Geo. B. Cox. Republican leader in Hamilton county.

Says Pattison Will Win.

Chairman Garber, of the Democratic State committee today gave out a proclamation that John M. Pattison, the Democratic nominee for Governor, will carry the State by 25,000 plurality.

Chairman Charles Dick today gave out the following ante-election prediction:

Dick Says State Is Safe.

Based up on the final poll reported by the County chairman from the eighty-eight countles of the State, every doubt-ful vote having been counted against us and every estimate made upon the most conservative lines a net Republican plur-ality of 33,951 is shown for Governor Her-rick.

Polls Are Conservative.

"In my experience, covering many State campaigns, actual Republican pluralities have exceeded, rather than fallen below results indicated by the poil, and I have every confidence that this will be the case at the election next Tuesday.

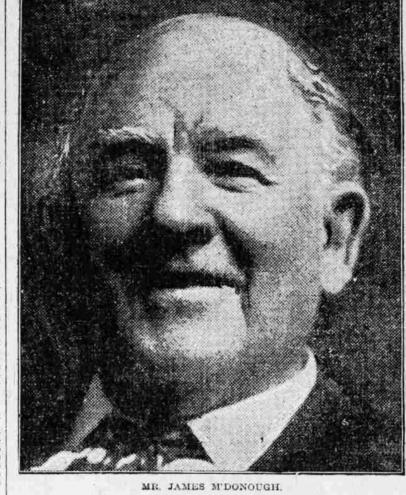

The same reports also justify the claim that the Legislature will be strongly Republican in both branches."

Suffered With Asthma Could Not Sleep

James McDonough, of 308 W. Jackson Ave., Knoxville Tenn., seventy-four years old, cured of Asthma and kept in vigorous health by Duffy's Pure Malt Whiskey.

"I am in my seventy-fourth year, but mentally and physically am taken for a man of fifty. I attribute my robust health and buoyancy of spirits to my judicious use of Duffy's Pure Malt Whiskey."

About fifteen years ago I was troubled with asthma so that I could not sleep well. Many nights I could not sleep at A friend suggested that I try Duffy's, stating that he had been troubled in the same way and that he had found much reilef after using the first bottle. I acted on his suggestion, and in a short time I considered myself permanently cured

The asthma returned, however, after some years, and I again reverted to Duffy's with the same satisfactory result. Although I now have no asthmatic trouble I continue to use Duffy's, and always have a bottle of it convenient, for I find that it aids digestion in my case. At times, when I feel that I am otherwise to pass a restless night, I take a dose before retiring. I do not begrudge the money I pay for Duffy's Pure Malt Whiskey.—JAS M DONOUGH.

Duffy's Pure Malt Whiskey

Old people everywhere recommend Duffy's as the most reliable stimulant and safeguard known, and commend its use. They attribute their health and strength in old age to its regular use. Duffy's is the only absolute cure and preventive of consumption, pneumonia, asthma, bronchitis and all the diseases of the throat and longs, indigestion, flatulency, dyspepsia, nervousness and every form of stomach trouble. It makes the old vigorous keeps the young strong, recuperates delicate women, saves the lives of sickly children. Purity and freedom from fusel oil guaranteed.

Duffy's Pure Malt Whiskey is sold by all reliable druggists and grocers, or direct, in sealed bottles only. Price \$1.00. You'll know the genuine by the "Old Chemist" trade-mark on the label. Look for it carefully and refuse everything else. 'Duffy's will cure you, nothing else will. Duffy's Malt Whiskey Co., Rochester, N. Y.

NOBODY IS EXEMPT.

A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers which, in many cases, are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

els and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They purtly digest what is caten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and mombranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you can what does not agree with you. Then take one or two tablets—give them needed help, and you will have no trouble.

House Ransacked.

According to the story told to Officers Parry and Watson by Mrs. Bay, she had been gone from the house about an hour and a haif and upon returning at 9:39, found everything upside down. A hurried search disclosed the fact that the above articles were gone, and it is possible that others will be reported missing after carefully looking over the sliverware and other valuables which burglars generally look for.

Skeleton Keys Used

Skeleton Keys Used

It is the theory of officers, who are working on the case that the place was either entered by the use of skeleton keys or by some one who knew the ground pretty well and had secured a duplicate this year and the Assemblymen elected will have no voice in the choosing of a United key as both the doors and windows were locked as Mrs. Bays had left them when she started for a neighbor's house.

Left Matches on Table.

The first thing that Mrs. Bave discovered upon reaching the house that excited her suspicions, was the absence of matches, which she had carefully placed on a table where they would be handy upon her return. There was no light in the house and as she grooped around for the matches, she finally discovered them several feet from where they had been placed, and several had been used. Finally after striking another match, she beheld the contents of bureau drawers scattered around and at once started for a telephone.

Thought Men Were in House.

As the door was locked upon her return, and none of the windows had been opened. Mrs. Bays had reason to believe that the burglars were still in some other part of the house and so informed the desk sergeant when word was sent to the station. A thorough search, however, falled to disclose the presence of any burglars, and so far no clew has been discovered to work upon. Mr. Bays is employed by the Rio Grande Rallway company as yard master.

Also Entered Another House.

At midnight it was discovered by Mr. and Mrs. Frank Roux, who reside at No. 3 Devon court, that their house had also been entered. They had been away spending the evening and did not return until 12 o'clock. As in the former case, the burglars used skeleton keys and all the deers and windows were found to be lecked and apparently untisturbed. Nothing of value was missed at the Roux home, although only a hurried search had been made at the time a report was sent in from the residence.
